Lamb Feeding Equipment

SHEPHERDESS

(Semi-automatic orphan lamb feeder)

Suitable for up to 20 lambs, this simple but very effective machine can be sited anywhere electrical power is available (water not required) and will continue to operate for several hours in the event of power failure. Lambs have been seen to thrive on the 'Shepherdess' maintaining tight skins, little belly and improved growth rates without digestive upsets, and can be weaned from four to six weeks of age. Comes with detailed operating instructions.

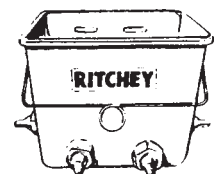

3230421 Complete

RITCHEY LAMB BUCKET

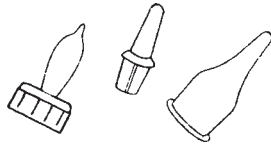

Can be hung on a hook or (with metal backing plate) mounted on fence or rail. 15ltr capacity; complete with 4 bucket valves and 4 teats. Takes 4 valves and teats.
