

# Farm/Dairy Hygiene & Vermin Control

Disease prevention on the farm, is infinitely preferable to trying to combat it when it occurs. Carrs Billington's wide Ministry approved chemical range suits varying water conditions, temperature, and types of plant. Carrs Billington's Area Sales Managers can advise you on the most effective chemical combinations to use for maximum cleanliness and economy.

Equally important is the need to eradicate vermin to prevent disease spread and damage to stored crops. Carrs Billington vermin control products help your eradication war.

Carrs Billington's wide Ministry approved chemical range suits varying water conditions, temperature, and types of plant.

## Residual Building Insecticides

### LOUSE POWDER

3230424 .....	750g	A permethrin-based powder providing rapid knockdown of insects etc.
3290145 .....	5kg	

### SOREXA WASP NEST DESTROYER

3269100

### OXYFLY

3200296 .....	250ml	Fast acting and residual insecticide for livestock building.
---------------	-------	--

## Fly Papers

### STICKY FLY PAPERS

3257000 .....	Small (4 pack)	Non polluting sticky flypapers.
3257100 .....	Large (single)	

## Livestock Insecticides

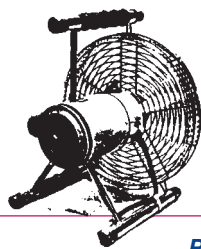

### FLY SPRAY AEROSOL

3274100	Ozone friendly aerosol, kills flies, flying ants, midges, mosquitoes, wasps and other flying insects. Safe in presence of food. <i>Tetramethrin 0.25%, permethrin 0.02%.</i>
---------	--

### TURBAIR SUPER FLYDOWN

3261100 .....	5ltr
3200084 .....	240V mains Flydowner

Ready to use insecticide used with Turbair ULV Flydowner sprayers for knock down of resistant flies on livestock in intensive units. *Pyrethrins 0.25%, piperonyl butoxide 2.0%.*

PML

### INSECTICIDAL FLY TAGS

3260500	Insecticidal fly ear tag for cattle.
---------	--------------------------------------

### CBAL FLYSPRAY

3200124 .....	5ltr
---------------	------

# CBAL FLY SPRAY

FOR USE ONLY AS AN INSECTICIDE

A ready-for-use solvent-based spray for surface & 'space' treatment

A ready-for-use product for application by fine mist hand-held sprayers, machine powered or 'cold fog' spraying equipment.

For use in domestic, commercial and industrial premises (including kitchens), hospitals (not for use in occupied wards), military establishments, food storage and preparation areas, in and around farm buildings (bulk milk rooms, dairies, milking parlours and animal rearing facilities), and refuse storage areas and tips.

For additional use in animal and avian housing and for use in pet shops.

**5 Litre - USE ONLY AS DIRECTED ON LABEL**

- Flies
- Mosquitoes
- Moths
- Wasps
- Ants
- Cockroaches
- Earwigs
- Silverfish
- Bristletails
- Fleas
- Bed-Bugs
- Beetles
- Spiders
- Mites
- Ticks
- Lice

## Hand & Vehicle Washing Products

### SWARFEGA

3123205 .....	1kg with pump	Hand protection cream.
31951 .....	4.5ltr bulk pack	

## Fumigants

### ALPHAGEN STANDARD PRILLS

32022 .....	25kg	Gas fumigant 90-91% active for broiler / battery / calf houses, mushroom stores lorries etc. <i>Use 1kg/280m3 of area to be treated through a fumigator</i>
-------------	------	---

### CUBISAN BEDDING TREATMENT

3503100 .....	20kg	Formulated for cows and sheep so the heat from the animal's body will slowly liberate the formaldehyde gas, controlling a wide range of micro-organisms including E.coli. <i>Each cubicle should be dressed with 2 oz. by sprinkling over the bedding. A further application is not necessary for 2 weeks. Also used in lambing pens.</i>
---------------	------	---

### SULPHUR CANDLES

32582 .....	450g	Grain store fumigation smokes for general disinfestation indoors.
-------------	------	---

## Bulk Tank Cleaners

### DIVERSOL BX

3505100 .....	10kg	Non-abrasive combined cleaner/bactericide for use in hand cleaning refrigerated bulk tanks. Suitable for use in water of any hardness.
---------------	------	--

### SPRAYCLENE

3509100 .....	20ltr	Iodophor detergent steriliser for bulk tank cleaning.
---------------	-------	---

### DEOSAN TC86

3504500 .....	20ltr	Liquid circulation cleaner for hot cleaning DX and other insulated holding tanks.
---------------	-------	---

### DEOSAN LOWCOUNT

3510200 .....	15ltr	High strength caustic detergent used with Deosan Quartz (below) in System 90 tankwasher.
---------------	-------	--

### DEOSAN QUARTZ

3510300 .....	15ltr	Acidic sanitiser for terminal disinfection of bulk milk tanks cleaned with Lowcount through System 90 tankwasher.
---------------	-------	---

### CHLORODEX

3500107 .....	25ltr	A detergent sanitiser for cleaning and sanitising direct expansion bulk milk tanks. <i>Contains Sodium Hydroxide and Sodium Hypochlorite. Useage rate 8floz/10 gallons water.</i>
---------------	-------	---

## Detergents & Detergent/Sterilisers

### DEOSAN DAIRY TIME DETERGENT

3503700 ..... 20ltr Neutral conc. synthetic detergent.  
Farm use: 50ml with 100ml hypo-chlorite in 40ltr water. Domestic: add 50ml to 40ltr warm water.

### 3D HOUSEHOLD DETERGENT

35098 ..... 5ltr

### DELLAKLOR A

3503500 ..... 5kg A powder blend of mildly alkaline detergents with a water softening agent, a bactericide and an organic chlorine release agent.

### DEOSAN FILTA-CLENE PLUS

**Powder**  
3504200 ..... 5kg For cleaning the filter elements of most re-usable milk filters, and is equally effective in hard or soft water. Contains: sodium hydroxide.  
**Liquid**  
3504700 ..... 5ltr

### ANTEC HD3

3204200 ..... 5ltr Heavy duty detergent sanitizer for pre-cleaning before disinfection and degreasing vehicles.

### CLINIFRESH

3510600 ..... 25ltr A mild, highly concentrated liquid detergent with lemon essence. Contains 28% detergent. Useage rate 2fnoz/10 gallons water.

## Disinfectants

### ANTEC FARM FLUID 'S'

3203600 ..... 5ltr Super concentrated virucidal disinfectant for all animal species. Approved foot and mouth at 1:700; SVD at 1:200; fowl pest at 1:200; TB at 1:50, general orders at 1:115.  
3203700 ..... 20ltr

### ANTEC LONGLIFE 250 'S'

3203400 ..... 5ltr Virucidal disinfectant for extended protection against all avian and animal diseases. Approved F&M 1:500, (SVD 1:200, fowl pest 1:250, TB 1:48, General orders 1:90).

### ANTEC VIRODINE DISINFECTANT

3234000 ..... 5ltr High activity iodophor disinfectant, Approved for milk and dairy, F&M, SVD, FP, TB & gen. orders at appropriate dilutions (see pack).  
3200047 ..... 20ltr

### VIRKON S

3200044 ..... 50g sachet Peroxygen compounds, non-mineral inorganic & organic acids. Effective against all disease causing virus families; especially equine herpes.  
3204000 ..... 5kg  
3200037 ..... 10kg

**Animal health (PML) products are by law stored under controlled conditions and cannot be returned to Carrs Billington for credit**

### SORGENE 5 DISINFECTANT

3255400 ..... 5ltr This broad spectrum farm disinfectant is a unique blend of peroxygen compounds. Rapid acting, effective against viruses, bacteria, fungi & spores. Dilute: F&M 1:75 (SVD 1:75, fowl pest 1:100, TB 1:75, General orders 1:200, ajeszky 1:100).  
3255500 ..... 18ltr

### PINE DISINFECTANT

3247300 ..... 5ltr Household disinfectant, pine odour.

### JEYES FLUID

32346 ..... 5ltr General purposes disinfectant for household/farm use.

# CUBICLE HYGIENE

**THE HIGHER THE BACTERIAL COUNT IN THE CUBICLE:**

- The Higher the **Risk of Environmental Mastitis**
- The Higher the **Milk Cell Count**
- The Higher the **Risk of Clinical Mastitis**
- The Higher the **Cost of Treatment**
- The Higher the **Economic Loss**

**BACTERIA NUMBERS:**

Bacteria thrive and multiply in an environment of organic matter and moisture – the cubicle. Different types of bedding promote differing rates of bacteria multiplication e.g. sawdust and shavings can become contaminated with up to 1000,000,000 bacteria 24 hours after bedding down

**CBAL CUBICLE DISINFECTANT:**

- A powerful BACTERICIDE in a natural SEAWEED BASE
- A unique cubicle and bedding SANITISER with exceptional Absorbancy
- Whilst other products do influence the rate of multiplication a bactericide actually Kills Bacteria

**CBAL CUBICLE DISINFECTANT BENEFITS:**

- Dry cubicle/beds
- Reduced risk from environmental bacteria
- Non hazardous
- Reduces odour from ammonia
- Non irritant to animals (unlike lime which burns)

## CBAL

# Cubicle Disinfectant

For a Healthier Environment

Use on all types of bedding: Mats, shavings, sawdust, straw etc.  
Rates of use: 150grm per week per Cubicle.  
75grm per sq. metre – for bedding.

Carrs Billington Agriculture Limited  
Haweswater Road, Penrith, Cumbria CA11 9EU  
Tel: 01768 866354 Fax: 01768 899345

20kg

## Poultry House Product

### ANTEC OO-CIDE

3204100 ..... Case Unique and patented two component coccidiocide and disinfectant. A case of 10 x 3.1kg will treat a broiler house of 1000m<sup>2</sup>.

## Sterilisers & Milk Stone Removers

### DILAC PLUS

3504900 ..... 5ltr Cold water milkstone remover.

### OUATERNARY ACTIVE STERILISER

3249600 ..... 5ltr High active detergent steriliser for processing plant and farm equipment.  
 3249700 ..... 25ltr *Useful for spraying cubicle bedding to reduce E.coli infections.*

### RED LABEL HYPOCHLORITE

3508300 ..... 5ltr Powerful hypochlorite rinsing solution, can be used with Brit for 2-in-1 cleaning/sterilising solution for hand washing equipment.  
 3508400 ..... 20ltr

## Circulation & Acid Cleaners

### ACID-O-PHY

3500100 ..... 20ltr Provides a solution for the removal of milk residues, milkstone and hard water salts; designed for acidified boiling water treatments.

### ALKASAN

3511500 ..... 25ltr A high strength Ministry of Agriculture Approved hypochlorite based liquid detergent/sanitiser designed specifically for in-place cleaning of milk pipelines. *Minimum strength 10% Av Chlorine at useage rate 5floz/10 gallons water.*

### AUTOKLENE

3500103 ..... 25ltr A high strength chlorine/caustic circulation cleaner specifically developed for the removal of fatty deposits. *Useage rate 8floz/10 gallons water.*  
 3500102 ..... 200ltr

### DUOSAN 50

3511600 ..... 25ltr A high strength Ministry of Agriculture Approved chlorine/caustic based detergent sanitiser powder which cleans, sterilises and defats. *Useage rate 5ozs/10 gallons water.*

### DELEX H

3503400 ..... 20ltr Hypochlorite base liquid, good glass cleaning regardless of water hardness. Use *double strength to retain for evening.* 8% w/w available chlorine.

### DEOSAN D60

3503800 ..... 25kg Alkaline detergents with organic chlorine release and caustic soda, plus water softener and rust control agent. Beneficial in hard water/water with a high iron content. *Add 6oz/10 gal. between 77°- 82°C.*

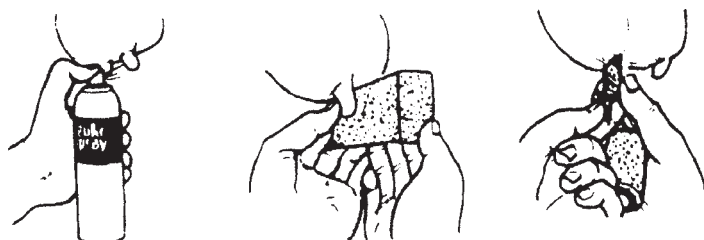

### DEOSAN D90

3510100 ..... 20kg Powder circulation cleaner/sanitiser for milking equipment; concentrated for rapid dispersal, superior bacteriology, low dust levels and minimal milking plant contribution to the farm's TBCs. *15kg sachets (100x150g) make up to 60ltr.*

## Teat Repair

### LEUKOPOR TAPE & LEUKO SPRAY AEROSOL

3 rolls 9.2mx50mm  
 3236400 ..... Pack Leukopor assists summer mastitis problems caused by split and damaged teats in cows, sheep or goats. After cleaning/dressing wound with the spray the tape is wound around the wound to prevent biting and sucking flies gaining access to the teat which can be milked as normal. Simple to use, gives 3 weeks protection, when the tape is removed easily and painlessly.

## Udder Creams

### UDDER CREAM

3510900 ..... 1ltr A traditional cetrimide and lanolin cream for uddercare.  
 3510800 ..... 4ltr

### COW SALVE

3502900 ..... 900g A heavy greasy salve for cracked & sore teats and inflamed udders.  
 3503000 ..... 3.5kg

### COOPERS DAIRY OINTMENT

3502200 ..... 1kg Traditional udder salve, prevents and heals sores and chaps helps prevent spread of mastitis.  
 3502300 ..... 5kg

### DEOSAN DAIRY OINTMENT

3503900 ..... 2kg Yellow iodised dairy ointment with a pleasant aromatic odour. *Available iodine 015% w/w, zinc oxide BP 5.0% w/w and other emollients.*

### DEOSAN UDDER CREAM

3504000 ..... 2kg Low density, pale pink, water based bactericidal cream with feint pleasant smell. *Chlorhexidine gluconate BP 2% w/w together with anhydrous lanolin as an emollient.*

### SUMMER FLY CREAM

3270100 ..... 400g Fly-repellent salve.

### GOLDEN UDDER

3510700 ..... 600ml Natural product for treating mastitis. Two active ingredients, sulphur & salicylic acid in a natural plant base to encourage absorption into skin. No antibiotics, no resistance to build up, no withdrawal of milk after treatment. Applied to the infected quarter at each milking. Use for at least three days.

## Teat Dips & Wash

### DEOSAN COUNTDOWN

**3511300** ..... Teat disinfectant for routine use before milking to help reduce bacterial contamination of the milk

### SUPER IODIP

**3509300** ..... **5ltr** Concentrated teat dip/spray with glycerine and sorbitol. *Dilute 1:3.*  
**3509400** ..... **20ltr**

### PRIODINE

**3500014** ..... **5ltr** A concentrated Iodophor with broad spectrum activity of 99.99% kill after 30 seconds and 100% kill after 60 seconds. *Diluted at the rate of 1 part Priodine to 7 parts water yields 2800ppm Iodophor and 7000ppm lanolin.*  
**3500113** ..... **25ltr**

### SILKIDIP

**3511900** ..... **30ltr** A high quality ready-to-use iodophor teat dip containing 0.5% iodophor, 10% glycerine and 0.7% lanolin. *Can be sprayed or dipped.*  
**3512200** ..... **200ltr**

### CLINIDIP SUPERCONCENTRATE

**3500010** ..... **20ltr** A 4:1 Iodophor concentrate to help prevent the spread of mastitis by reducing teat skin organisms. Gives good teat skin condition as contains 2.5% w/v iodine, 20.0% glycerine and 3.5% lanolin.

### SUREDIP

**3511700** ..... **25ltr** A high quality Chlorhexidine ready-to-use teat dip containing 0.72% Chlorhexidine, 10% glycerine and 0.7% lanolin. *Can be sprayed or dipped.*

### SUREDIP REPEL CONCENTRATE

**3511800** ..... **5ltr** A 4:1 Chlorhexidine concentrate with high levels of emollient plus fly repellent which lasts for six hours.

### DEOSAN SUPER EX-CEL TEAT DIP/SPRAY

**3504400** ..... **20ltr** Ready to use iodophor dip/spray with glycerine and sorbitol for teat condition.

### DEOSAN TEATCARE PLUS

**3509500** ..... **20ltr** A ready-to-use teat dip/spray. Contains 4250ppm of chlorhexidine gluconate, along with glycerine, lanolin and sorbitol.

### DEOSAN SUMMER TEATCARE PLUS

**3510400** ..... **20ltr** Fly repellent chlorhexidine emulsion teat dip/spray.

## Teat Plugs

### HS TEAT PLUGS

**3233100** ..... **10 pack** Individually packed plugs in plastic tubes and supplied in 10 plug zip container, Danish. Each plug provided with removable obturator.

### COLUMBUS TEAT PLUGS

**3216400** ..... **20 box** Medicated teat plugs. Supplied 20 per box.

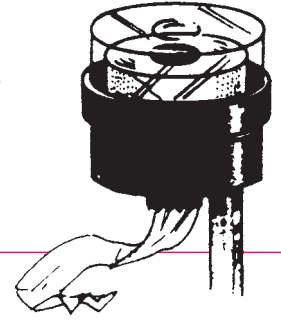

## Dairy Wipes

### CARRS DAIRY WIPES

**3113700** ..... **6 rolls**  
**3113600** ..... **Dispenser**

Light blue, super absorbent paper dispensing from special tear off centre teed dispenser. Pack is 6 rolls of wipes, each roll 345m x 245mm.

The efficient, spray proof dispenser is specially designed for use with rolls of Carrs dairy wipes.

### UDDER CLOTHS

**Plain white honeycomb**  
**5000283**

**Terry towelling type**  
**5000279**

### TEISEN TEAT WIPES

**3289800** ..... **Bucket**  
**3289900** ..... **Refill**

**DISINFECT AND DRY.** A new teat wipe in auto-dispense bucket containing a quick-acting, efficient disinfectant which helps to maintain udder hygiene and protect milk quality. Use for cleaning, disinfection and drying of teats before attaching milking machine, or disinfection of milker's hands, or disinfection of teats before treatment. Helps maintenance of good teat condition and stimulate milk let-down.

## Milk Filters & Equipment

### MILK FILTERS & SOCKS

#### Maxa Filters (100/pack)

**3134200** ..... **100 x 7"**  
**3134300** ..... **100 x 7½"**  
**3134400** ..... **100 x 8"**  
**3134500** ..... **100 x 13½"**

#### Maxaflo filter socks

**31346** ..... **Pack of 100 - £10.75**

#### Rayflo filter socks

**31447** ..... **Pack of 100 - £18.25**

### AMBIC MASTITIS DETECTOR

**3101400** ..... **Pack of 4**

Used at each milking point to give early warning of the presence of mastitis. The detector is fitted to the milk tube between claw and recording jar or line, monitoring each cow for the whole milking, indicating immediately which cow needs treatment by showing degree of clotting. The transparent body allows signs of mastitis to be seen on the black screen while attending the cow.

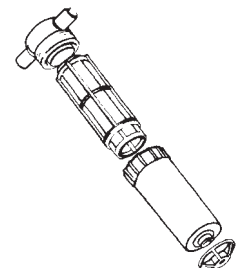

### AMBIC FLOW FILTER

**3101500/AF010**

#### Spares

**3101000/AF002** ..... **Filters, set**  
**3101600/AF004** ..... **Transparent case**  
**3101100/AF012** ..... **Connector unit**  
**3101200/AF022** ..... **Fitting rings**  
**3101300/AF001** ..... **'O' rings, set**

Robust simple reusable milk 'Flowfilter' provides increased dependable efficiency whilst saving money. Welded stainless steel mesh cylinders (no more burst socks), outward milk flow avoids any tendency to collapse. High capacity working area, cheaper to use than disposables (never again run out of socks). Transparent case for easy inspection.

### PLASTIC TEAT DIP CUP

**35096**

For economical and thorough use of teat dips.

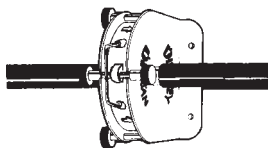

## DEOSAN IN-LINE FILTA

3115400 ..... Complete

Spare Filta disc set  
(red, blue, yellow, grey, white)  
3590023

Large capacity in-line filter with stainless steel housing for plate coolers. Filtration up to 50µ.

## Rat, Rabbit & Mole Control

Fumigation products require Poison Book Signature on collection

### PHOSTOXIN

3247000 ..... 30 tabs  
Auto applicator  
3285600

Fumigation tablets for mole/rabbit control. Generates phosphine gas on exposure to atmospheric moisture. No loose dust hazard, no risk provided instructions & precautions are strictly observed. No special equip. necessary.

### AMOS TALUNEX and TOPEX APPLICATOR

3275400 ..... Talunex pellets 100g  
3275300 ..... Topex applicator

Makes rabbit/mole control less precarious. Similar to other chemical methods, Talunex pellets (contain aluminium phosphide), when in the ground react with moisture and air to produce a fatal gas.

The pellet canister screws into the feather-light plastic applicator (Topex) with metal borer end is shoved into the ground, and a pellet trigger-released into the target hole. Only to be used by an operator trained in its use.

### BARREL TYPE MOLE TRAP

3102600

When correctly set in the run: mole triggers off spring and is speared within the barrel.

### CLAW TYPE MOLE TRAP

3110900

Sprung jaws are set in line with the mole run. When hitting the trap the mole moves the ring, releasing the jaws and is crushed in the claws.

### FENN TRAPS

3119900 ..... Mark 4  
3120000 ..... Mark 6

Humane kill vermin traps, operating on sprung jaw and trigger plate mechanism.

### LITTLE NIPPER MOUSE TRAP

3136500

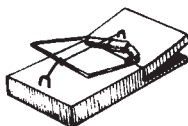

Traditional sprung trap, baited then set against moving platform. Trap is released as mouse steps on platform. Death is clean and instantaneous.

### SELF-SET RAT TRAP

3196300

Clean kill, simple yet effective traditional easy to use and bait killing trap.

### MONARCH CAGE RAT TRAP

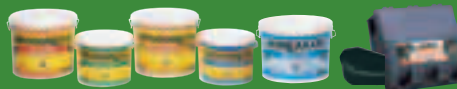

3108100

Auto. rat trap, catches several a time. Rats are live, and those already caught attract others into the baited area from which there's no escape.

Say goodbye to rats and mice forever!

The Sorex rodent control range.

Sorex Limited, Widnes,  
Cheshire, UK. WA8 8TJ  
Tel: 0151 420 7151  
Fax: 0151 495 1163  
www.sorex.com

\*Offer available from your local Neosorexa supplier while stocks last.  
Always read the label. Use pesticides safely. Neosorexa contains 0.005% Difenacoum, Sorex CD contains 0.075% Cholecalciferol and 0.025% Difenacoum.

### FOX SNARE

3121400

Effective method of fox control. Snare is as humane as possible without being complicated. Strong, non-tangling wire, double action swivel.

### RABBIT SNARE

3144000

Made from special snare wire, fitted with brass eyelets so they work easily, fast and cannot get stuck. Fitted anchoring cord.

## Rodenticides

### NEOSOREXA RAT POISON

Highly efficient rodenticide based on second generation anticoagulant, *difenacoum*. Effective against warfarin resistant, it is more efficient against nonresistant rodents than any other anticoagulants.

### NEOSOREXA READY MIX

3290160 .....	500g	Based on a highly palatable cut
3230462 .....	1kg	wheat base Neosorexa is
3243600 .....	3kg	extremely effective against mice
3243500 .....	6kg	as well as rats, producing death in
3243800 .....	10kg	5-10 days after being taken in two
3200113 .....	18kg	or more feeds. <i>The bait contains</i>

0.005% *difenacoum*.

Animal health (PML) products are by law stored under controlled conditions and cannot be returned to Carrs Billington for credit

## NEOSOREXA THROW PACKS

**3243700** ..... **50 pack** 100g of bait in sealed plastic pack, particularly useful for use outside in the protection of silage bales, long term bait points and general baiting.

## TOMCAT 2 RAT & MOUSE BAITS

Tomcat 2 bait contains bromadiolone one of the USA's leading second generation anticoagulant rodenticides, tried & tested by thousands of users it offers many advantages;

- Palatability – in trials proved up to x 10 more acceptable than other baits.
- Safety – low toxicant level is low hazard to humans and non-target animals.
- Efficiency – In trials 100% control of rats and mice achieved.
- Economy – Cost effective formulations.

## TOMCAT 2

**Pellets**  
**3290600** ..... **5kg**  
**3289600** ..... **10kg**

**Blocks**  
**3290500** ..... **4kg**  
**3289300** ..... **8kg**

**Throw Packs**  
**3289200** ..... **4kg**

Second generation anticoagulant rodenticide for all weather conditions for use both inside or out. Available in a selection of presentations, pellets, blocks or handy throw packs.

Highly palatable kills rats and mice resistant to some other anticoagulants.

*Contains 0.005% bromadiolone.*

## DRAT LIQUID

**3285400** ..... **500ml** Rat/mouse liquid concentrate 0.25% w/v chloro-phacinone to mix with whole or cracked grain.

## SLAYMOR

**3254600** ..... **3kg**  
**3254700** ..... **12kg**  
**3298900** ..... **25kg**

**Bait bags - 40 x 150g**  
**3254800** ..... **Pack**

A second generation rodenticide highly effective in controlling both rats and mice. Ready-to-use, mould resistant whole wheat bait contains 0.005% bromadiolone.

Highly palatable, contains both mould and germination inhibitors. Effective against warfarin resistant rats.

## SOREXA CD MOUSE KILLER

**3255200** ..... **500g**  
**3255100** ..... **3kg**  
**3255300** ..... **5 sachet pack**

Sorex CD is a ready to use industrial and agricultural mouse killer. Mice are particularly Small household sachets difficult to control, partly because of their habits and physiology and partly because of the relatively high level of resistance to anticoagulants present in many populations. Sorex CD contains two active ingredients; calciferol (vitamin D), and difenacoum; a particularly effective combination against mice. The canary seed base is particularly attractive to mice and optimises acceptance.

## JAGUAR RAT & MOUSE BLOX

**3200502** ..... **4kg**

A lethal rodenticide containing the very toxic Brodifacoum – Kills Rates and Mice in a single feed.

**Animal health (PML) products are by law stored under controlled conditions and cannot be returned to Carrs Billington for credit**

**Phostoxin®**

Highly effective gassing tablets

- Easy to use, with specially designed applicator.
- Proven in use over many years by farmers, foresters & professional pest controllers.
- Reduce damage and loss caused by these pests.
- Contains aluminium phosphide.
- Available from Carrs Billington.

For more information call  
**01342 327171**

Always read the label. Use pesticides safely.  
Phostoxin is subject to the Poisons Rules. Its sale is controlled by legislation.
